

BOOKS for conversations about RACE

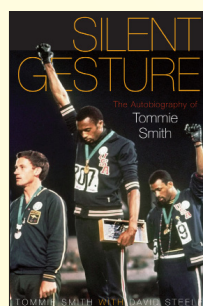

An unflinching but necessary look at white supremacy, updated to address racial privilege in the age of Trump

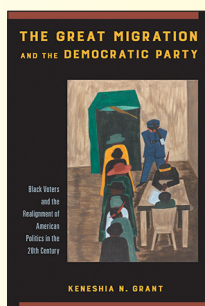

Returning the problem of whiteness to white people, Yancy identifies the embedded and opaque ways white power and privilege operate

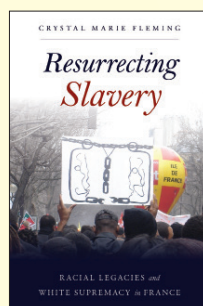

"[A] provocative discussion of black masculinity by critiquing both the social and academic treatment of killings of black men and boys in the U.S."—**Choice**

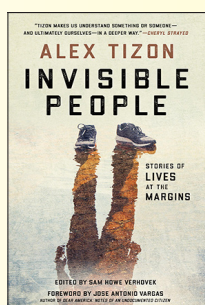

The story behind an image of protest that will always stand as an iconic representation of the complicated confluences of race, politics, and sports.

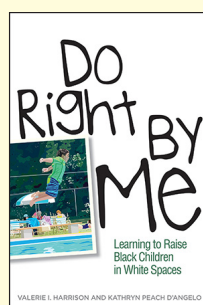

Frames the Great Migration as an important economic and social event that also changed the way Democratic Party elites interacted with Black communities in northern cities

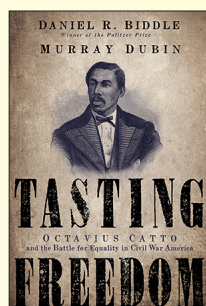

Bringing a critical race perspective to the study of French racism, Fleming provides a nuanced way of thinking about the global dimensions of slavery, anti-blackness, and white supremacy

Epic stories of marginalized people—from lonely immigrants struggling to forge a new American identity to a high school custodian who penned a *New Yorker* short story.

FORTHCOMING NOVEMBER
A conversation between two friends—about how to raise black children in white families and white communities—after one adopts a biracial son

ALSO OF INTEREST

The life and times of Octavius Catto, a civil rights pioneer [felled by a bullet] fighting for social justice issues and voting rights more than a century ago
